Message from Nominee Chairman

I salute all the Teachers: “The Builders of India.”

I congratulate all the students: “The Future of India.”

I still remember the words of one of my Professor at IIT Madras: “The true teachers are those who help us think for ourselves.”

“Teaching is the profession that teaches all the other professions.” After all, they are shaping the future of the nation.

Today as we celebrate Teacher's Day, I encourage all my teachers of KV1 Shahjahanpur to take a moment to reflect on the significant role you play in shaping the future. Your influence extends far beyond the walls of the classroom, as you empower our students to become responsible global citizens, ready to embrace challenges and make a positive impact. It surely gives me immense pleasure to greet and wish you on this Teacher’s Day.

The purpose of any education is to foster development in an individual, enabling them to become better human beings and contributing members of society, nation, and world. Collaborative Learning, Reflective Learning, Spaced Learning, Flipped Classroom, Self- Learning, Gamification, VAK teaching, Experiential Learning and Crossover Learning are various types of Conventional & Modern Teaching Method. We all speak of AI however we should not forget EI which is the essence of our social index.

I today witnessed many students of class XII conducting classes in the role of teacher and the teacher performing role of guiding them in their Micro-teaching Model whereby the teacher reviewed teaching sessions and gave constructive feedback. It was very appreciative, and I convey my thanks to the team of both Guru and Shishay.

My teacher, you show me how to behave properly, you teach me invaluable lessons, and you make me learn from my mistakes. You are my Guide; you are my Mentor. Saying that I salute you and what you do for me is an understatement.

Happy Teacher’s Day!

COLONEL JAGVIR SINGH JAGLAN

NOMINEE CHAIRMAN
